Do farm assurance schemes make a difference to animal welfare? by Carmen Hubbard (*VR*, February 11, 2012, vol 170, pp 150-151; doi: 10.1136/vr.e847). The data set referred to in this paper was collected between 2003 and 2008 by inspectors employed by Animal Health (formerly the State Veterinary Service). Within the text Animal Health should be substituted for Animal Health Unit and AHU. Animal Health has been combined into the Animal Health and Veterinary Laboratories Agency (AHVLA) since April 1, 2011.
