

Correction

Aspiration pneumonia associated with oesophageal myonecrosis in sheep due to BTV infection in Brazil by N. A. B. Antoniassi, S. P. Pavarini, A. Henzel, E. F. Flores, D. Driemeier (*VR*, January 9, 2010, vol 166, pp 52-53; doi: 10.1136/vr.b4775). In this short communication, the number '115 bp' in the following sentence was incorrect: 'The aetiology was confirmed by duplex RT-PCR of total RNA extracted from the blood of the affected sheep that amplifies a 115 bp fragment of segment 7 of the BTV genome (Anthony and others 2007)'. The correct number is '1156 bp'. The error is regretted.
